## Profile

Web developer and formerly Agricultural engineer and quality manager who is passionate about programming and technology. Enjoying building projects and apps. My preferred tool is Python but I've applied other tools as well to get the job done, whether it be front-end APIs with HTML, CSS, JavaScript/react.js or back-end E-commerce with Ruby/RoR. Additionally, I've successfully faced design challenges with my artistic side.

## Skills

### Computers and IT

- ✓ Programming : Ruby/Rails ★★★★★, Python/Django ★★★★★, Javascript/React ★★★★★, HTML, CSS.
